

European Aquaculture Production Report 2014-2019

Prepared by the FEAP secretariat (18 December 2020)
contact: FEAP Secretariat - secretariat@feap.info

FEAP PRODUCTION REPORT - 2020

The Member Associations of the FEAP provide production data for the activities of their national producers on an annual basis. In addition, if available, forecasts for the coming year are also provided, based on their own individual reporting systems.

The FEAP Secretariat groups this information into European and National reports on production for publication in this document. The information and figures used for the preparation of this report have been provided, for the most part, by the Member Associations of the FEAP while additional data has been sourced from National statistical offices and/or other national sources.

For further statistical information on aquaculture production and values, the FAO provides a wide range of data for global aquaculture and fisheries statistics (FISHSTAT) while Globefish, another initiative of the FAO, represents a network of regional marketing information services that provides data on markets and prices. European trade data can be accessed through EUMOFA – the European Market Observatory for Fisheries and Aquaculture Products (see www.eumofa.eu) and EUROSTAT. This FEAP Production report is split up in 2 sections and covers the period 2014-2019. All figures given for 2019 are estimates.

PRODUCTION BY COUNTRY

- Total European production (including EU and non EU countries)
- EU Member State production (where available)
- Non-EU European State production

The individual countries covered by this report are :

Croatia	France	Italy	Spain
Cyprus	Germany	Netherlands	Sweden
Czech Republic	Greece	Norway	Switzerland
Denmark	Hungary	Poland	Turkey
Faroe Islands	Iceland	Portugal	United Kingdom
Finland	Ireland		

- Countries with a total production <1000 tons have not been included.
- Some total figures may differ from National figures due to some minor species included in the Total production and not in the National one.

FEAP PRODUCTION REPORT PER SPECIES

This FEAP Production report includes data on the following fish species reared in European aquaculture

- Atlantic salmon
- Large (>1.2kg) and portion-size (<1.2kg) rainbow trout
- Arctic Char, Halibut and cod
- Common carp and other cyprinid species
- Catfish species
- European eel
- Sturgeon and caviar
- Sea bass
- Sea bream
- Sea bass, sea bream juveniles
- Turbot, sole and meagre

Production data for tuna and some freshwater species have not been included due to the current lack of reliable data.
