

Challenge

The fish farming industry:
in **constant change**

1986

6 men – 180 tonnes Production

2015

4 men – 12,000 tonnes Production

Noralf Rønningen/Aqualine AS, Norway

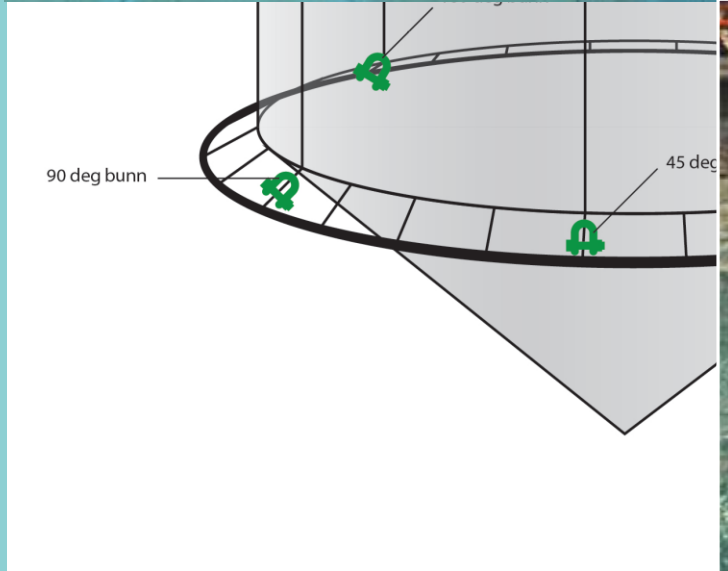

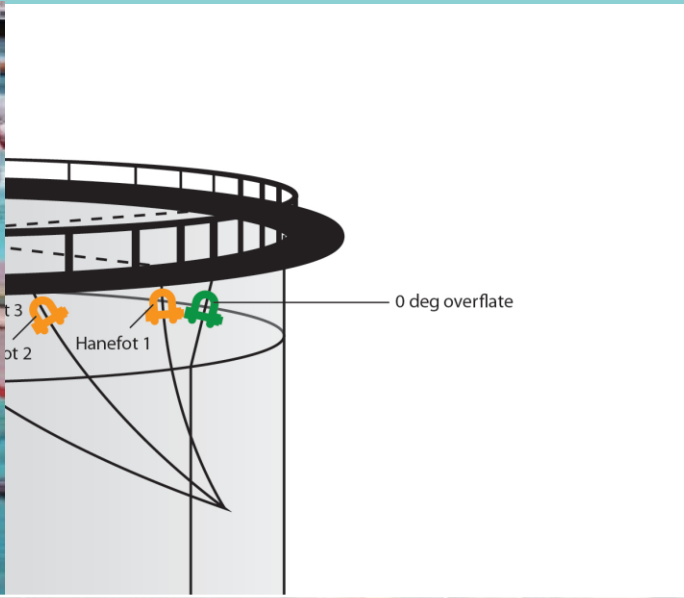

Technology:
designing the future /
adapting to the future

Bigger, Tougher, More Exposed,
Off-shore

Stricter Requirements

Lab and on the ground R&D

FEAP50 years

Congratulations!!

Our next steps

ensuring good fish welfare, good environment, good HSE and minimum escapes to produce healthy farmed fish **for the world's population**

cooperate and stand together to influence the authorities to facilitate increase in production

Supporting FEAP!
