

## Final position on fish welfare

The RSPCA's view is that most of the farmed aquaculture products, including farmed salmon and trout, are of a high welfare standard. However, it is concerned that the welfare of farmed salmon, rainbow trout, cod, sea bass, sea bream, sea bass, turbot, Atlantic salmon and sea bass is not always as high as it should be.

The RSPCA aims to ensure the welfare of farmed salmon, trout, sea bass and sea bream, and to ensure that the welfare of farmed rainbow trout is improved.

### RSPCA aims

1. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard. This includes ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
2. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
3. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
4. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
5. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
6. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
7. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
8. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
9. To ensure that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard, including ensuring that farmed salmon, trout, sea bass and sea bream are of a high welfare standard.
