### **Subject: Action, Resilience and Legacy Celebrated at the ENR H&P Annual Business Meeting in Stockholm**

Boulder, May 20<sup>th</sup>, 2024 – The Foundation of European Infrastructure Builders (ENIB) held its 47<sup>th</sup> Annual General Meeting (AGM) in Stockholm on May 20-22, gathering approximately 200 executives, national associations, contractors, and experts from across Europe. The event focused on the future of the sector, addressing challenges, innovation, growth, and sustainability in Europe for building.

ENIB's agenda encompassed several key areas, including the development of the **European Green Deal**, a strategic initiative to the European Commission aimed at ensuring healthy, resilient, and positive growth. ENIB advocates for a strong program of infrastructure for Europe, after the fact, increasing the sector's resilience to global economic forces, supporting social economic, and reducing emissions with the third. Through policy development and administrative contributions, ENIB promotes the building as a sustainable industry, calling for greater recognition of its environmental, social, and economic benefits, and striving to implement its best practices and emerging objectives. By aligning initiatives with the EU's goals, ENIB seeks to position the sector as a cornerstone of a responsible and forward-looking European economy.

ENIB's vision was set by the **ENIB 2030 Strategic Vision and Policy** was discussed in the agenda. ENIB advocates a focus on the 2030 European for building is competitive, inclusive, environmentally sustainable, and socially oriented, making it an attractive career path for future generations. The European Infrastructure Builders' Association (ENIB) is a leading organization, leading infrastructure projects, its research and innovation has remained largely unchanged since 2010.

Another priority discussed was the progress made on a **European General Management Plan** agenda. Using the long-term goals and strategies for Europe and with the objectives of building sustainable economic growth, ENIB and its member firms promote and build roads, ENIB 2030. (The ENIB European Infrastructure Builders' Association (ENIB) is a leading organization, leading infrastructure projects, its research and innovation has remained largely unchanged since 2010).
