FEDERATION OF EUROPEAN AQUACULTURE PRODUCERS

European Aquaculture Production Report 2019-2025

V1 - prepared by the FEAP Secretariat (10 November 2026)

FEAP Production Report - 2026

The Member Associations of the FEAP provide production data for the activities of their national producers on an annual basis.

The FEAP Secretariat groups this information into European and National reports on production for publication in this document. The information and figures used for the preparation of this report have been provided, for the most part, by the Member Associations of the FEAP while additional data has been sourced from National statistical offices and/or other national sources.

For further statistical information on aquaculture production and values, the FAO provides a wide range of data for global aquaculture and fisheries statistics (FISHSTAT) while Globefish, another initiative of the FAO, represents a network of regional marketing information services that provides data on markets and prices. European trade data can be accessed through EUMOFA - the European Market Observatory for Fisheries and Aquaculture Products and EUROSTAT. **This FEAP Production report is split up in 2 sections and covers the period 2019-2025.**

Production by country

- Total European production (including EU and non-EU countries)
- EU Member States production
- Non-EU European States production

The individual member countries of FEAP for which detailed production information is covered by this report are :

Belgium	**Denmark**	**Greece**	**Italy**	**Poland**	**Switzerland**
Croatia	**Finland**	**Hungary**	**Malta**	**Portugal**	**Türkiye**
Cyprus	**France**	**Iceland**	**Netherlands**	**Spain**	**United Kingdom**
Czech Republic	**Germany**	**Ireland**	**Norway**	**Sweden**	

- *Note: countries whose 2025 confirmations are still pending may show partial or missing 2025 totals.*
- *Some total figures may differ from National figures due to some minor species included in the Total production and not in the National one.*
- *Sources: FEAP Member Associations and national statistical offices. Credits for fish species illustrations : © Scandinavian Fishing Year Book and © Joseph R. Tomelleri.*

FEAP Production Report per species

This FEAP Production report includes data on the following fish species reared in European aquaculture :

Atlantic salmon

Rainbow trout (large >1.2 kg and portion-size <1.2 kg)

Arctic Char

Halibut

Cod

Common carp and other cyprinid species

Catfish species

European eel

Sturgeon and caviar

Sea bass (+ juveniles)

Sea bream (+ juveniles)

Turbot

Sole

Meagre

Bluefin Tuna

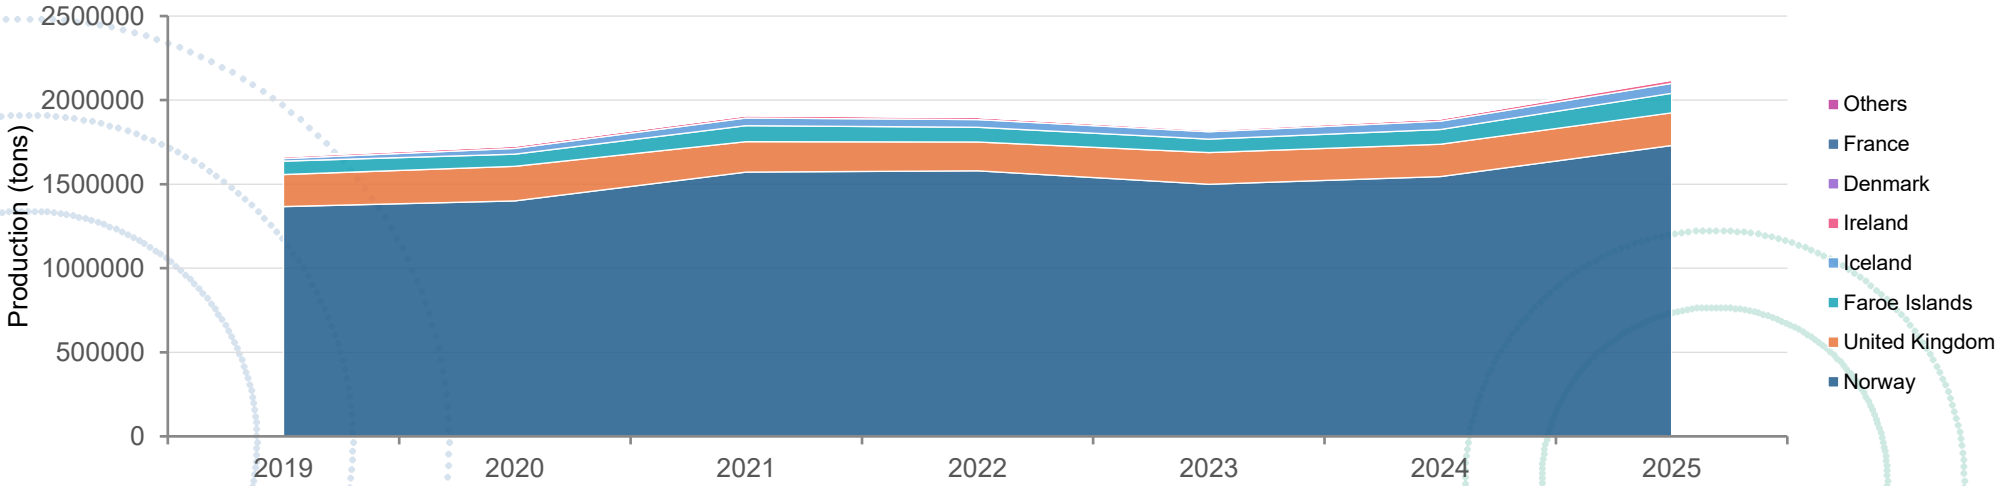

Production data for some freshwater species have not been included due to the current lack of reliable data.

Atlantic Salmon
